

Film Contest

In Thursday September 21, we had the closing ceremony of the contest on short film about spreading of information about the state of the ocean and the resulting threats. The ceremony was attended by the Head of the Department of Environmental Design, from City Hall of Katowice.

In May and June, 7 teams of students from 4 schools participating in the Educo2cean project: 7 students team from X LO and 4 teams from ZKSO from Katowice, 7 people team from PZS No. 2 from Pszczyna and 6 pupils team from ZS SRK from Wodzisław, have produced 7 films.

All the films were very interesting. The jury composed of prof. Piotr Skubała from UŚ, dr Agnieszka Skorupa from UŚ, dr Ryszard Kulik from the Studio for All Beings, and dr. Antoni Salamon from CEI Poland decided award three films:

Reducing of Carbon Dioxide Emissions (by Wiktor Sawicz et al., ZKSO);
Fish and fish (by Adam Syrek and others from X LO);
Effects of Climate Change Oceans (by Maria Modzyk et al., ZKSO).

Congratulations to the authors of the awarded films, the recognition and thanks to all the teams. All films are very good. All participants of the competition received prizes or gifts, founded by the city of Katowice.
